Please write something about:

1. Preparation and travel report
2. Accommodation
3. Academics
4. Everyday life and leisure time
5. Conclusion
6. Final grade of exchange (from 1-10) – what would you like to change

1. The Erasmus project is really well organized so it was easy to understand the procedures that had to be made before the departure and also after the arrival thanks to the disponibility and the high level of preparation of the people working in this sector.

2. Finding accomodation was very difficult. I had several problems because some landlords didn't want to rent the house to international students and a lot of houses were already busy. I found accomodation in an Erasmus House in which I had really good time and never a problem with the landlord, however the monthly rent was above the average of Ljubljana.

3. The academic level of University of Ljubljana is very good. I found the exams I attended interesting and stimulating. The didattic method is different from the one used in Italy, the courses in Ljubljana are less theoretical and more practical.

4. Ljubljana is very good for free time due to the accessibility of every place thanks to its small dimension. The city is full of students so it is very easy to spend good time.

5. To add something more I can say that the student situation in Ljubljana is very good thanks to the several discounts and help in general to make the life more affordable. For instances the Boni System is something very helpful to enjoy the stay in Ljubljana.

6. My final grade for the exchange is 8. I am very happy to have joined the Erasmus project. It is a situation that allows to grow thanks to the infinite influences you can get from people from all over Europe. Moreover, Ljubljana is a really enjoyable city for young people. Also, the accademic level is very good. Lastly, I would like to thank all the employees of the Faculty of Engineering of the University of Ljubljana, both Professors and Erasmus office workers, for the teaching hours and for the help in all matters I had to face.
